Sat Nov 14     Something New for Mt. Diablo (Short Notice)
8:45 AM       67 miles, 5 B
Have you climbed Mt. Diablo yet this year? No? Well, me
neither, so maybe now’s the time to go for it, especially given the
nice weather forecast for the weekend! The route to the base
will be a bit different from what we’ve done before. We’ll start in
Livermore at Lucky’s, corner of Concannon and Holmes,
then ride up Collier Canyon Rd, a short (5.5 mile), quiet and
scenic stretch of road. That leads into Highland Rd and then
over to more familiar surroundings once onto Camino Tassajara.

For the first timers in the club, Mt. Diablo is 11.3 miles long
with about 3,300ft of climbing. The really “fun” part is the very
last little section, a 17% grade that provides one final torture
before you can rightly declare victory over the mountain.
About the breathtaking panoramic views at the summit: “Geographers
claim that hikers [and cyclists] can see more of the earth’s
surface from the top of Mt. Diablo than from any other peak in
the world with only one exception: Africa’s legendary 19,340-foot
Mt. Kilimanjaro.” (Source: Mt. Diablo St. Park.) So bring your
camera! Water is available at the summit, perhaps snacks too if
the Interpretative Center is open. No coffee stops along the way,
so bring something to eat. We’ll start a bit later to give folks
time to make it over to Livermore and to get some of the early
morning chill out of the air. Hope to see you there!

Mon Nov 30 Monday Morning Recovery Ride
8:30 AM 40 miles, 1-2 M
Let’s meet at the Cabrillo Park Cafe/former Bicycle Garage parking lot at 4673 Thornton Ave at 8:30 for an 8:45 start to an easy-going ride down Paseo Padre to South Grimmer. Then it’s a flat ride down past Club Sport to the end of Fremont Blvd. We’ll turn around and have a coffee break at a local coffee shop and make our way over to Coyote Hills for a trip back on the trail, ending our ride well before 12:30 (on rare occasions we may head directly home after coffee, shortening the ride to about 30 miles and getting back close to 11:30). Elevation gain is 465 feet. Rain or threat of rain cancels. If rain threatens, call me between 7:30 and 8:00 on the day of the ride.
